Thinapp Archive Unpack |LINK|

Creates a single EXE file that will download the MSI and install the MSI from the URL MSI URL The URL from which MSI will be installed. Archives should be next to .exe and can be placed anywhere on the disk. But if it is to be installed to the default folder, it must be on the same drive as the MSI and the .exe and .msi file must be available on that drive. The MSI URL cannot be changed during the installation process. But you can manage with MSI, but not with MSI. This can also be achieved with an .exe file.
