CD Menu Builder Crack Free Download (Updated 2022)

WISCO CD Menu Builder Crack Mac - Premium Menu Builder WISCO CD Menu Builder is a CD-ROM menu builder program designed to create professional royalty-free autorun (auto-play) CD-ROM menu projects which can be used to launch other programs, presentations, business cards, ebooks, or just about anything on your CD. The WISCO CD Menu Builder program has two Interface options, each of which can be used to create a completely customized menu page. You can use the button interface to create a static look and feel for your menu page or you can use the free form browser interface for a completely dynamic presentation. The WISCO CD Menu Builder program gives you a choice of three interfaces. Whichever interface you choose for your project, WISCO CD Menu Builder will create a professional, personalized presentation for your products and content. The following features are included with WISCO CD Menu Builder: 1) Create and modify different menu page types. These include: ⏵ Local Page ⏵ a page that includes all content from the CD - this is used for creating localized versions of your menu project ⏵ HTML/JPG Menu Page ⏵ a page that is an HTML page with graphics and a slideshow ⏵ Flash Menu Page ⏵ a menu page that has flash objects like buttons, bullet menus, clickable buttons, etc. that can be changed ⏵ HTML/Sound Menu Page ⏵ a menu page that has sound files in the background that can be turned on or off ⏵ HTML/PDF Menu Page ⏵ a menu page that has PDF files in the background, so the menu viewer is able to open, print, and save a page. ⏵ Flash/PDF Menu Page ⏵ a menu page that has flash objects like buttons, bullet menus, clickable buttons, etc. that can be changed. PDF graphics can be viewed at the same time. ⏵ HTML/PSD Menu Page ⏵ a menu page that has Photoshop image files for your graphics. 2) Generate a blank autorun/autoplay CD-ROM menu project that can be copied to other CDs 3) Generate a blank autorun/autoplay CD-ROM menu project that can be copied to floppy disk or zip disk. 4) Generate autorun/autoplay CDs to store on your website for

CD Menu Builder Crack + Activation Code

WISCO CD Menu Builder Crack For Windows makes creation of autorun/autoplay CD-ROM Menu projects quick and easy. For one low price, you'll get all the tools you need to create a professional, uniform look for all company CDs with an easy-to-use interface. The optional HTML interface provides complete customization of the end-user interface with clickable links, graphics, and menu options. The end-user interface does not require the use a web browser. WISCO CD Menu Builder creates professional royalty-free autorun (auto-play) CD-ROM menu projects which can be used to launch other programs, training tutorials, presentations, (CBT) computer based training applications, slide shows, brochures, CD Business cards, and ebooks. Your imagination is your only limitation. CD Menu Builder is designed to create all settings you need to make a project. You have complete control of your project, including the project colors, layout, text, opening sounds, graphics, and functionality. The menu selections, clickable buttons and graphics, and HTML links can start other programs

(like installers, demos, and help files) and run many internal commands that can verify and change Windows internal settings. The WISCO CD Menu Builder program gives you a choice of three interfaces. Whichever interface you choose for your project, WISCO CD Menu Builder will create a professional, personalized presentation for your products and content. The Button Interface can display up to five menu choices, five clickable buttons, each with its own icon, text, fly over text, and command activity. It is best used for projects that have very few actions, or where you want a simple set of choices for your end-users. The Browser Interface is totally free-form. You create the HTML pages to look any way you want, with no limit on the number of links or graphics the end-user can click. Links can go to other pages stored on the CD, web URLs, or they can have the same functionality as the button and menu choices in the Button Interface. Because this interface is completely HTML-based, you have quite a lot of freedom to make it look and act the way you want it to. The Slide Show Interface is used to show BMP and JPEG graphic files on an HTML page. Sound files can be played, and text can be displayed with each graphic. The length of time each page is displayed can also be controlled. Limitations: � 09e8f5149f

CD Menu Builder Crack Activation Code

What's New in the?

WISCO CD Menu Builder is a practical, easy-to-use application to create custom autorun CD-ROM Menu projects which can launch other programs, installers, demos, or (CBT) training applications, or can run internal commands. You can include a question screen so that they can help themselves to any of the features on the CD. You can also put instructions in the installer itself. WISCO CD Menu Builder creates professional royalty-free autorun (auto-play) CD-ROM menu projects which can be used to launch other programs, training tutorials, presentations, brochures, CD Business cards, and ebooks. Your imagination is your only limitation. WISCO CD Menu Builder creates all settings you need to make a project. You have complete control of your project, including the project colors, layout, text, opening sounds, graphics, and functionality. When you create your CD project, you can specify the menu choices, clickable buttons and graphics, and HTML links that you want to appear on the project. You can include up to five menu choices, each with its own icon, text,

fly over text, and command activity. You can also tell WISCO CD Menu Builder to create a small box that appears with each choice. This box will appear on top of the menu choice, and will display an icon, text, and button activity. You can specify the clickable button actions, and the command-activity to perform. You can also specify a slide show of up to four BMP and JPEG graphic files. Features: * Create autorun (auto-play) CD-ROM projects of up to five menu choices, five clickable buttons and graphics, and multiple sounds. * Add text to the clickable buttons and graphics. (Double-click the button and text input area to change text.) * Specify the layout of your project. * Choose from three easy to use interfaces. * Specify the color scheme for your project. * Specify the font style, weight, and size. * Specify the number of lines and fonts per page. * Specify the link color to match a custom link color you set for the buttons. * Specify an opacity for the background graphic to make it semitransparent. * Specify the size, opacity, and position of the small box that appears with each menu choice. * View PDF and PSD files of your project.

System Requirements For CD Menu Builder:
