Planeti 2 Arbeitsbuch UPDATED Download the full version of Rar Ebook This book is a revised edition of its predecessor "Planeta Planeta Paper". The publication focuses on a concise and easy-to-read format, a modern approach to it was found by the author. In English there is an expression to paper over one's head (literally - cover your eyes). In the USSR, this manner was like the expression "the eyes are afraid - the hands are doing." A person, trying not to miss a single detail, tries his best to carry out the initiated event. However, is it possible to put yourself in the place of this situation with the same force? Help myself? If you try to get rid of fear, believe in yourself and your strength, then you can achieve a lot. But this must be done gradually, over time. First, you need to set goals and outline ways to achieve them. Having gone through sorrows, failures and disappointments, a person is filled with strength, and he becomes invulnerable to any external influence. "Fear of failure, lack of self-confidence, in one's own strength is forever" (A.P. Chekhov). Therefore, each person should, having clearly outlined his goal, work in this direction and not be afraid of failures. They will definitely lead you to the desired goal. The author of the book is a polyglot, and after many years of "visiting" all continents and schools, schools and shops, as well as camps where they have not yet learned to understand the language in this way, already at this stage of knowledge, he felt that for the successful completion of any event, at least some kind of workout. He did not become "fixated" on any one language and simply, without any effort, began to learn all the languages that could be learned. And as you understand, it was not only Spanish, but also French, and German, and Italian, and Chinese. The book "Journey to the End of the World" written by him is not just a squeeze from modern textbooks in the target language, but a collection and processing of material from more than twenty different textbooks. It was they that formed the basis of this work, and in the future the author repeatedly processed them, which bore fruit, and now the book is called "Myself a Polyglot". It contains not only a descriptive part, but also the information that has been developed.
