In consultation with our Senior Editor, Kevin Goersdorf, Editor-in-Chief, Kim Wallace, and Publisher/Executive Editor, I was tasked with determining the best course of action. I met with the staff of the Daily Chieftain in Pueblo in person the last two days. We corresponded via phone and email. We discussed a new approach, which has been well received by the staff. This is our response. April 3: April 4: April 5: Thanks for your support. I want to reassure our readers, that, in addition to the board and paper and all other staff, I take this very seriously and will continue to do so. I ask all of you who can, to make the Chieftain a part of your daily routine. I sincerely hope you find it interesting, useful, and enlightening. If you want to enjoy your favorite computer games with maximum performance, you will have to remove all the bloatware and unwanted applications that may hamper the system's efficiency. Advertisement Removal Tool (ART) is a tool that can help you remove bloatware from your system. In short, this tool is able to remove all the unwanted items that may unnecessarily slow down the system as well as fragment the hard drive. ART is a very simple tool, with a highly user-friendly interface that will help you remove bloatware at no time. To use it, you just have to install the program on your computer and launch it. After that, make sure the system has enough memory to perform the removal task. Also, you can decide whether to uninstall the app automatically or not (you will have to enter the license key manually). The program will scan your computer for unwanted programs and then remove them all. Additionally, it will detect and delete the application's leftovers on the hard disk. Before you use ART, you will have to choose your Operating System (Windows, Linux, or Mac), the amount of used memory, and click the start button. So, ART does not eat a lot of your computer resources, which makes it one of the best removal tools. However, ART can remove only the bloatware programs that you might want to be removed from your PC. How to use ART In this section, we will discuss the basics to remove apps with ART. Step 1: Install the program on your system If you want to use the ART tool, you will have to install it on your computer. To start the installation process, follow the on-screen instructions. Step 2: Launch ART After the installation process, you will see a start button on your computer screen. Make sure that you hover the mouse over this button. Then, click the button to run the app. Step 3: Accept the program's agreement and remove the bloatware You will see a screen asking you to accept the program's terms. If you want to use ART, you should agree to the user terms and press the OK button. After that, you will be able to see all the unwanted apps that might be leftover on your hard disk. As you can see, the listing has been made easier by pressing the "Remove Now" button. From there, you can decide whether or not to remove the apps automatically or manually (you will have to enter 09e8f5149f
