FIFA is the world's leading videogame franchise. Created by Electronic Arts Inc. (EA), FIFA is one of the world's best-selling and most popular videogames. FIFA is sold in more than 100 countries and is available for the Xbox 360 and PlayStation 3 videogame consoles, Sony PSP handheld system, Nintendo DS handheld system, PC, and Wii. The flagship series FIFA World Cup games are unrivaled worldwide. In November 2002, FIFA became the first videogame to be exhibited at the Venice Biennale. FIFA Ultimate Team™ - Ultimate Soccer The Award-winning Ultimate Team (UT) mode is back, bigger and better than ever. The global community has spoken and FIFA 20's Ultimate Team mode is the most-requested feature of all the modes. Face the real-world competition from around the world in real-time and rank up against players from any and all nations on the world stage. Earn your reputation as the greatest manager of all time with the ultimate rewards in Ultimate Team. Play with the best players from around the world and assemble your dream team. Scoring The rules of scoring in FIFA 20 have been radically overhauled and now, much like real-life, the most important area of a player's game is the ability to create and finish off chances. You have to be very good with your final passes, link-up play, pressing and building up and moving off your opponent. The "head" and "foot" of the attacking player also matter now, as do aggressive play and positioning. Roles A new PLAYER ROLES system now impacts all elements of game - from movement, passing, shooting, finishing and reaction to key events such as goals, fouls, red-cards and player stamina. The goalkeepers and defenders now also have distinct play styles, and their game can be controlled from a new or upgraded KICKER. Defending Enjoy more variety and individual skill in defending. Individual defending (DIF) is now independent of your total (DTM) statistic, making your defensive game more nuanced. New DIF game-flow involves angles, DIF shots, DIF off-balance shots, DIF feints, and DIF back-post defending. Make DIF your game-flavour, not your total. Attack Take control of attacking. Play the way you want to. Narrow down which type of defender you need based on the team you bc9d6d6daa
