What's New In Flash Card Assistant?

This is an addin for Excel 2007 and 2010 that is designed to speed up the process of making flash cards. It's simple to use, you only have to decide what type of flash card you want to create and what number of questions and answers you need to create the card. The addin is easy to use and offers you a possibility to customize the look and feel of the card and the presentation of the names of the lists with the number of the question or of the answer. Once you have created your flash cards, you can print them and use them wherever you like. Once you have registered the addin, you can see the introduction to the addin, which provides you with all the instructions you need to create flash cards and print them. If you want, you can also find some examples. Features:

- Customizable flash cards appearance and order of the labels and the questions/answers
- Printing support for the cards
- Help file which is automatically updated during the run of the addin, whenever a change is made to it
- You can easily enable/disable certain features of the flash card
- You can easily customize the look and feel of the flash cards
- You can easily create a test with a different order of the questions/answers
- You can easily create a test based on a certain study guide
- Flash Card Assistant is completely 100% safe
- It's a standard practice in some countries to learn some information about a subject by looking at pictures. In some cases, teachers have a test about a subject, that's why we have different images and you need to memorize the names of the images. Flash Card Assistant allows you to create flash cards with images instead of the usual xing text. With Flash Card Assistant, you can create flash cards and learn to easily by looking at the images that accompany the information. You can create questions and answers in two ways: 1) You can create the questions and the answers using the addin directly. Once you have created your flash cards, you can print them and use them as you like. 2) If you want, you can use the Flash Card Assistant wizard to create flash cards with images for each question and answer. Flash Card Assistant Wizard Description: This is a wizard which you can use if you want to create flash cards using images instead of the usual text. To learn about using the Wizard click here or go to the introduction
