Spite Starts With Z! It's time to get your revenge. Your two favorite chameleons are ecstatic to be back! Hold your breath because their scheme is fraught with revenge and chaos. After many months of cruel torture, their criminal mastermind has been shipped off to jail. His days are numbered. But before he leaves, revenge and resentment are on the mind of both chameleons. You are the big fish. You can get rid of the smaller fish. Interact with the Chameleons using their unique abilities. Guide Chameleons through the game in order to reach their goal of eating as many "Zs" as possible. Create words using letters in 3 separate lanes, with the letters moving slowly on the board. Chameleons evolve with your words in a fun time-trial mode. The longer you feed them, the more cute. The same applies to your wait times. Available Screens: To get the games to work properly on a tablet/phone, we need two or more Screens so: 1. That we can present a nice game display 2. That we can show the incoming in-game messages on the second Screen Each built-in Screen can contain its own settings. If you have an older tablet (such as the Samsung Galaxy Tab S2 or S3), you can also use one of the following external Screens (all of them: iPad, iPhone, Android). A handy, real life word game! You start with a pile of letters and a board. A game board has a random pattern of empty boxes. Your job is to put letter pieces into the empty boxes. You need to eat all the letters to win. The board size may be fixed or random. The more letters you eat, the harder it gets. Make words by consuming and eating the letters on the board. There are different scoring methods. There are endless potential word games in this app. Categories: 1. Speed 2. Time 3. Scrabble style: One word, three pieces. 4. Word scramble style. One word, three rows. 5. Write your own game! Free
