Install Coats Munki (which is the equivalent of Anaconda for Python) and activate it. Enter the following into your command line: `python pip install -i \ -c \ autocad.exe /install` Here, 'autocad.exe' is the executable that you want to use and '/install' is the directory it's to be installed into. You can find the path to autocad.exe by running the following: `python -c 'import autocad; autocad.find_exe()'`

And when they were down by three runs, the Dodgers' manager made a bold move. He sent up right-hander Zach Greinke to the mound, but he wasn't the starting pitcher. Greinke threw two scoreless innings in relief of Clayton Kershaw, who took a no-hit bid into the seventh inning before striking out with the bases loaded to end the longest hitless streak of his career. With the Dodgers clinging to a 3-1 lead, manager Don Mattingly sent Greinke to the mound for the third time in his career with two outs in the top of the seventh. Dodgers catcher A.J. Ellis, left fielder Andre Ethier and first baseman James Loney played the leadoff spot for the first time

Easily import comments, suggestions and errors from people in the field or through other CAD systems. (video: 5:20 min.) Add comments from other CAD users to your model automatically using AutoLISP (video: 2:43 min.). Edit settings directly in the CAD object window: Edit the properties of a drawing using a user-friendly interface. The toolbar and context menus in the CAD Object window work in the same way as in 2200 and 2201, but they now offer even more ways to change objects and properties. (video: 1:46 min.) Use the Tree Viewer in the CAD Object window to navigate between child objects and their properties, and the Inspector to edit the properties of child objects. (video: 1:47 min.) In the CAD Object window, you can also change the scaling factor (video: 2:13 min.), render a 3D view, and change your viewing perspective (video: 4:02 min.).
