Overdungeon is a new card game that has its roots in other games, such as overstacked (a blitz chess-like game) and send in your heart (a multiplayer game of elimination). The theory behind Overdungeon is simple: maintain an aura of power over your opponents, and you win. Here, you take on the role of a mighty wizard who runs a dungeon. You send adventurers to retrieve various treasures from the dungeon, and then you can build and add to your "dungeon". You can also send these creatures to kill your opponent's creatures, and if they manage to complete their task, they'll return with a treasure. Moreover, you can win by eliminating your opponent's leaders. What's more, the game is a turn-based strategy game, so the action is spread out over many turns. As is clear, the game is not a classic game of deduction and matching. However, rather, the game is all about acting quickly and under immense pressure. Overdungeon has three different difficulties, as well as several types of cards, from the basic ones like "health" to the more complex ones like "siege". Additionally, the cards all have different stats and varying levels of attack or defense. If the first time you play Overdungeon, you may have a hard time adjusting to all the rules and the stats of each card, especially the ones that cause a change of the color of your creatures. Nevertheless, the game is easy to learn and thus offers a good combination of difficulty and strategy.
